## Objective

---

I am a creative Front-End Developer specializing in crafting the visual elements of websites and applications that users directly interact with. I possess extensive experience in responsive design and leveraging modern frameworks like React. I work closely with UX/UI design teams to ensure an optimal user experience. Proficient in HTML, CSS, and JavaScript, I also have strong skills in version control systems such as Git. Through my projects, I consistently strive to enhance user engagement and deliver positive outcomes that significantly contribute to business growth and customer satisfaction.
